Is your dog getting the socialization and play time they need? Treat your dog to a 20–30-minute group playtime providing both dog and people interaction. We have a sanitized outside yard as well as a climate-controlled indoor playroom when the weather is not ideal. Our play areas allow for maximum fun and the chance for your pet to burn off some pent-up energy. Our groups consist of similar size, weight, energy level and sometimes age to allow for the best experience when socializing with others.

If you would like your pet to participate in group playtimes, please fill out the questionnaire below to the best of your abilities. A free assessment will be done the first time your dog stays with us to determine if group play is an option.
